

Mohd Atif

Full stack cloud-native Java Developer

Phone: +91 6387745622 Email: mohdatif2291@gmail.com GitHub:<https://github.com/Atif2292>

<https://www.linkedin.com/in/mohd-atif-569808278/>

Professional Summary

Graduate with a passion for leveraging innovative technologies to create seamless and scalable solutions. Armed with hands-on experience in full-stack development. I am well-versed in Java programming and dedicated to embracing cloud-native architectures. Ready to contribute fresh perspectives and a strong work ethic to a dynamic development team.

Projects:

- **Quick Shop:** Developed a dynamic E-Commerce web application using **React.js**, incorporating **React Router DOM** for client-side routing, **Axios** for API interactions, **NavLink** for navigation, and **React Hooks** for state management. Implemented key features including product catalog, user authentication, shopping cart, checkout process, and responsive design.
- **React-Ecommerce:** This is the another E-Commerce Application build by using the React.js framework, leveraging the **Fetch API** for seamless data retrieval and management. With a focus on user experience and functionality, this project aims to provide a robust e-commerce solution equipped with essential features for online shopping.
